

Abbreviated Dialling*

What is it?

With Abbreviated Dialling, depending on your choice of monthly charge you can choose to store up to 8, up to 40, or up to 60 of your most frequently used telephone numbers in the telephone exchange memory. These telephone numbers can include national and international long distance numbers.

Abbreviated Dialling – 8 Number Memory

Eight stored numbers can be retrieved by pressing one single digit code – you can store your frequently dialled telephone numbers from 2 through to 9.

Abbreviated Dialling – 40 or 60 Number Memory

For more than eight numbers, a two digit code applies – from 20 through to 59 or 79. To connect this service call Telstra on 13 2200.

How do I use it?

To call a number stored in exchange memory

 Abbreviated Code **#** (e.g. **3 #**)

To store or alter a number in exchange memory

 *** 5 1** Abbreviated Code **Phone Number** **#** 

To cancel a stored number in exchange memory

 **# 5 1** Abbreviated Code **#** 

Anything else I need to know?

Abbreviated Dialling overrides Call Control, i.e. Call Control applies when storing the destination, but not when making calls using Abbreviated Dialling.

1 # cannot be used as an Abbreviated Code.
